

Novaflex Custom Vacuum Hoses

Industrial Vacuum Hose 5020

Novaflex 5020 Industrial Vacuum Hose is designed for light duty commercial vacuum cleaners used in foundries, factories and similar applications where a flexible and lightweight construction is preferred.

Material Handling Hose 5015

Novaflex 5015 Material Handling Hose Lightweight material handling hose designed for portable and central vacuum equipment. The 1/8" abrasion resistant tube is ideal for conveying light materials by gravity flow or at low working pressures. (Ground through helix wire to make static conductive.)

Material Handling Hose 5050

Novaflex 5050 Heavy Duty Industrial Vacuum Hose special non-kinking design for boom hose applications on hydro-vac equipment. Available in custom lengths and tube compounds to convey various media, including diesel, mud and abrasive slurries.

Yellow Jack Sanitation Hose

Novaflex Yellow Jack Pumper-Sanitation Hose offers a smooth interior for optimum flow and unique interlock for extreme flexibility. An external wear rib prevents damage from abrasion. Used in liquid transfer, sanitary and cesspool. Suction: construction and quarry. Suction service: machine and tank liquid transfer and more.

Rubber Leaf Collector Hose

Novaflex Street Sweeper and Leaf Collector Hose outstanding for leaf collection and light vacuum applications on street sweeping equipment. Corrugated for optimum flexibility, smooth cuffs for ease of installation. Also available in custom "connector" designs to match exact equipment specifications. Consult factory for complete line of custom connectors, bellows and expansion joints.
